Subject: Letter of reference for Fabio Fehr

To whom it may concern,

Fabio Fehr has work on 2 courses at GetSmarter, both in the statistics and data science fields. He has worked both as a subject matter expert and an engagement tutor on the courses. These courses have been for the University of Cape Town and the LSE (London school of economics and political science).

On all occasions that Fabio has done work for us, he has exceeded our expectations for the given role. Every person that has worked with him on these courses has been pleased with his work and demeanour. He demonstrates mastery over his given field and exhibits clear communication skills.

I would hire Fabio again in the future.

Please reach out to me at any time to provide reference.

Kind regards,

Graeme Glass
Director, Learning Experience (Technical Courses)
GetSmarter
